

## List of ships that operated in Antarctica during the 2016/17 season, with call signs and names.

The SCAR and WMO request that all ships operating in Antarctic waters should make meteorological observations and report them on the GTS.

The following ships, which entered Antarctic waters in 2016/2017, made meteorological reports, they may have reported from outside Antarctic waters after the date given here. For most ships the season begins in November or December and ends in March. Country is the country of registration, VOS is the country of recruitment. Monitoring is manual and may miss some ships.

Some ships, which primarily send messages via an AWS, are listed twice

Notes:

The following ships and yachts are known or suspected to have visited Antarctic waters in 2016/2017, but no synoptic reports were received whilst south of 60° (most records are via Palmer AIS, which was offline from February 22 to March 9). It is clear that many other ships (tourist, cargo, research, fishing and yachts) have visited, but no call-sign information was available for them. Some ships have position only reports from Antarctica on the sailwx website :

A list of IAATO member vessels that may visit Antarctica is at  
<http://apps.iaato.org/iaato/vessel/listVessels.jsp>.

The following ships may or have operated in Antarctica over the last five years, but are not positively known to have done so in 2016/17. The list has not been fully updated with VOS status. The latest report is either the date of any noted on the GTS or the last time the ship was known to be in Antarctic waters, but may not be definitive as this section is updated on an ad-hoc basis:

Call sign	Name	Country	Last Antarctic report	Last in Ant.	Latest obs/Comment
