

## List of ships that operated in Antarctica during the 2017/18 season, with call signs and names.

The SCAR and WMO request that all ships operating in Antarctic waters should make meteorological observations and report them on the GTS.

The following ships, which entered Antarctic waters in 2017/2018, made at least one meteorological report, they may have reported from outside Antarctic waters after the date given here. For most ships the season begins in November or December and ends in March. Country is the country of registration, VOS is the country of recruitment. Monitoring is manual and may miss some ships.

### Notes:

Some ships, which primarily send messages via an AWS, are listed twice

The following ships probably have transmission issues:

C6JC3 Only one report, on February 23. Present November to February.

C6YZ5 Only two reports, on February 14 and 16. Present December to February

PDZS Only two reports, on December 6 and February 11. Present December to March.

PBQK Only one report, on December 16. Present in November to March.

5BMC3 Only one report, on January 12. Present November to March.

The following ships and yachts are known or suspected to have visited Antarctic waters in 2017/2018, but no synoptic reports were received whilst south of 60° (most records are via Palmer AIS, Arctic Sunrise or Global Fishing Watch). It is clear that many other ships (tourist, cargo, research, fishing and yachts) have visited, but no call-sign information was available for them. For example nearly 60 ships were present on December 25. Some ships have position only reports from Antarctica on the sailwx website. Launches were not monitored in 2017/18.

A list of IAATO member vessels that may visit Antarctica is at

<http://apps.iaato.org/iaato/vessel/listVessels.jsp>.

The following ships may or have operated in Antarctica over the last five years, but are not positively known to have done so in 2017/18. This list has not been fully updated with VOS status. The latest report is either the date of any noted on the GTS or the last time the ship was known to be in Antarctic waters, but may not be definitive as this section is updated on an ad-hoc basis:
