## List of ships that operated in Antarctica during the 2018/19 season, with call signs and names.

The SCAR and WMO request that all ships operating in Antarctic waters should make meteorological observations and report them on the GTS.

The following ships, which entered Antarctic waters in 2018/2019, made at least one meteorological report, they may have reported from outside Antarctic waters after the date given here. For most ships the season begins in November or December and ends in March. Country is the country of registration, VOS is the country of recruitment. Monitoring is manual and may miss some ships.

Notes:

Some ships, which also or primarily send messages via an AWS, are listed twice

5BMM3 is listed in Vol 47 as D5BC 

5BMM3 is listed in	n Vol 47 as D5BC
The following ship	s either have transmission issues, or may not strictly have entered Antarctic waters:
C6YZ5	Only one report, on February 8/9, present in December, January, March
CCAQ	Only one report, on December 5, present in January and February
CCLA	Present in February
PBQK	Present in February, March
PDZS	Only one report, on December 18, present in February
PWPM	Only two reports, on December 13 and March 2, present in January
PWAR	Present in January but no reports
UBNR	Only two reports, from 60S, on February 2 and March 1
ZMFR	Only one report, from 60S, on February 10

The following ships and yachts are known or suspected to have visited Antarctic waters in 2018/2019, but no synoptic reports were received whilst south of 60° (most records are via Palmer AIS or Global Fishing Watch). It is clear that many other ships (tourist, cargo, research, fishing and yachts) have visited, but no call-sign information was available for them. Some ships have position only reports from Antarctica on the sailwx website. Launches are not monitored. Where the call sign is not known an MMSI number is given.

A list of IAATO member vessels that may visit Antarctica is at <u>http://apps.iaato.org/iaato/vessel/listVessels.jsp</u>.

The following ships may or have operated in Antarctica over the last five years, but are not positively known to have done so in 2018/19. This list has not been fully updated with VOS status. The latest report is either the date of any noted on the GTS or the last time the ship was known to be in Antarctic waters, but may not be definitive as this section is updated on an ad-hoc basis:

Call sign	Name	Country	2017 N	Last in Ant.	Latest obs/Comment
